Statement of Award

UICC Technical Fellowship Award [UICC-TF/19/640197]

To Whom It May Concern

This document certifies that:

Dr. Filippo Piccinini
Istituto Scientifico Romagnolo per lo Studio e la Cura dei Tumori
Via Piero Maroncelli 40
Meldola 47014
Italy

has been awarded a UICC Technical Fellowship by the Union for International Cancer Control following an international scientific review by experts.

This award is to enable Dr Piccinini to study/teach for 33 days at:

Biological Research Centre of the Hungarian Academy of Sciences, Temesvári krt. 62, Szeged 6726, Hungary under the supervision of Prof Peter Horváth

in order to facilitate the transfer of technologies, techniques and skills needed to better serve the cancer research activities or treatment/care of cancer patients in the home and host countries.

The Project is planned to commence on or around 28 May 2019 or immediately upon the issuance of the visa. The total value of the award to be provided by UICC is USD 2,500, representing contributions towards living and travel costs. Any additional funds needed have been secured by the Fellow, who is required under the conditions of the fellowship to return to the home country at the end of the fellowship.

The UICC Technical Fellowship Award is funded by a group of cancer organisations in Europe and North America.

The UICC funds will be paid upon confirmation that a visa (where applicable) has been granted.

Any assistance you can give to facilitate visa and passport procedures would be greatly appreciated by UICC, the funding and the home and host organizations.

With best regards,

Sally Donaldson PhD
Fellowships Manager
